SAVE PARTS and
REDUCE DOWNTIME**

- *Excellent weldability in all positions, vertical & overhead included.*
- *It is bendable –ideal for “in situ” and restricted areas.*
- *Welds on greasy, dirty, rusty, galvanized and also on wet.*

304

SPECIAL ADVANTAGES

Malloy 304 Universal mild steel electrode is the most versatile and easiest electrodes for all maintenance departments for mild steel welding repair.

- It welds by CONTACT (drag), without sticking, in all positions, vertical up-down and overhead included.
- Welds on dirty, greasy, rusty, galvanized and also on wet .
- It produces superb appearance, crack & porosity free deposits.
- It's ideal for fabrication and repairing "in situ" even in restricted areas, thanks to its special bendable coating.

SUPERIOR PROPERTIES

- High tensile strength (up to 600 N/mm²).
- Elongation up to 25%.
- Excellent restrike .
- Easily removable slag.

APPLICATIONS

Malloy 304 allows easy but high quality mild steel welding in these cases:

- Sheets and tubing • Tanks • Pressurized vessels • Frames • Mobile equipment or machinery • Chassis • Containers • Farm Machinery • Window & Door frames • Furniture • Cabinets • Brackets • Galvanized metal • Truck bodies • And many others...
